

FEATURES

- © Silicone light strips for internal or external illumination, ideal for transport vehicles and tool carts.
- © From a minimum of 330mm to a maximum of 10,000mm.
- © Options for single-color and dual-color models, with colors including blue, amber, red, cool white, and warm white.
- © Can be directly installed (12V/24V) or with a switch (10-33V).
- © Made from silicone material, suitable for curved surfaces, and resistant to wear and corrosion.
- © Installation options include 3M adhesive or metal brackets.
- © The lampshade features a 3D striped design for even light distribution.
